

**zebra** collection

---

2011-2012

Zebra Collection is a new brand that stands for Scandinavian design.

Our roots are as bedroom specialists and we are widening our assortment of products on the market. At Zebra, we constantly review our range of goods by being attentive to our customer's feedback. With our selected designers, we make products that breathe Scandinavia.

"Scandinavia has its idioms and appeals to us northern residents. We love nature, the seasons, the roughness of the outdoors and wood's nuances. Fine wood authenticity in furniture is not possible if one chooses alternate base elements such as plywood, reconstituted wood products or other engineered products".

*Mikael Rosenquist, President Zebra Collection*

## the collection

Zebra Collection is available in solid oak, solid beech stained black, rugged northern pine and walnut. All raw wood material comes entirely from the Öresund region of Sweden. Some components made of white painted MDF.
